

## GENERAL

## PRODUCT COVERED:

Component - Wiring, Printed

## FACTORY LOCATION AND IDENTIFICATION:

The products covered by this Procedure are produced at the following locations. Refer to Addendum to Authorization Page for factory IDs.

## SUBCONTRACTOR LOCATIONS:

The Subcontractors noted below are authorized to conduct various steps of the manufacturing Process described in the Section of this Procedure, in accordance with a Follow-Up Service Procedure Volume as noted below.

LOCATION

VOLUME NO.

N/A

## MARKING:

The company identification, factory identification (if the board is produced at more than one location), and board type designation appear in permanent ink or are etched on each board.

A ▲ (delta) symbol will be marked on those products within a given-type designation that comply with direct support of current-carrying parts performance level requirements of UL 796 (see Table II).

**For CNR type designations, the company's identification, the type designation and the Recognized Component Mark for Canada appear in permanent ink or are etched in each board.**

## TRADEMARK DESIGNATION:

The following trademark or trade name, if any, may be used to identify products described in this Procedure in lieu of the Listee and/or Recognized Company name. The company identification is the Recognized Company's name or trademark (see below):
